
M2 weak-form STLSQ
M2b strong-form STLSQ
M3 ensemble, weak
M3 ensemble, strong
M4 best subset, weak
M4 best subset, strong
M5 EIV best subset (oracle)
M7 PySR
M9 slow manifold (own target)
a
Langmuir, Pe ≈ 94
σ = 2 %, ε = 2 %
P(success)
(fraction of estimation replicates)
log10 Da (Da = k tstoich, dimensionless)
b
MOF-303-like step, Pe ≈ 94
σ = 2 %, ε = 2 %
P(success)
(fraction of estimation replicates)
log10 Da (Da = k tstoich, dimensionless)
c
Langmuir
MOF-303-like step
median
log10 Da*disc per slice (dimensionless)
